***AP/Dual Credit courses may have different weight and categories**

Assignments in each category are weighted as follows:

- 0x - no weight (these are recorded in the grade book as **0,1,2,3, or 4** and are used at teacher discretion for formative assessments and assignments such as lab fee or pre assessments that do not affect grade)
- 1x - building block, content check
- 2x - cumulative assessments, major projects

Assessment Policy

- All student work (formative assessments, content checks, and cumulative assessments) provides important evidence of learning needed for continued growth. Therefore EVERY assignment should reflect the student's best effort, independent of the weight or impact on the course average grade.
- Students will receive feedback on all assessments through a standards-based scoring guide.
- Students will receive scoring guides in advance for all assignments so that they understand the requirements.

Below Expectations (0 or 50)	Initiating (1 or 70)	Developing (2 or 85)	Meets (3 or 95)	Exceeds (4 or 100)
Minimal evidence of achievement of learning objectives was not achieved.	The work provides minimal evidence of achievement of some learning objectives.	The work provides sufficient evidence of achievement of the learning objectives.	The work provides ample evidence of achievement of all learning objectives.	The work shows some evidence of achievement that has exceeded the learning objectives.

Other indicators in the Gradebook

MSG - assignment has not been completed yet

INC - assignment was never completed

Reassessment Opportunities

- Formative assessments
 - Students scoring **0 or 1** on a formative assessment will review and reassess. This must happen prior to the cumulative assessment of the topic of study. (i.e. end of unit of study)
 - All students **MAY** choose to reassess to show further growth.
 - The gradebook will reflect student growth.
- Summative Assessments
 - Summative Assessments can be weighted at a 1x or 2x.
 - Assessments may include evidence for a variety of standards.
 - Students may demonstrate further growth for up to a 100 prior to the end of the learning unit.
 - A student should request a reassessment contract within three (3) days of the posting of the grade.
 - Opportunities to improve over prior performance are identified by the teacher and provided equitably to all students, if they meet the following requirements:
 - Completed original assignment
 - There were no academic integrity issues
 - Completed all reteaching/relearning activities, as determined by the teacher.
